

Checking, counting & valuing of bulk coins

HESS CoinIn 311 coin depositor

The HESS CoinIn 311 coin depositor checks, counts and values even large quantities of bulk coins reliably and quickly and offers certified coin checking technology.

Counterfeit coins or non-coin items are reliably detected and sorted out. At the same time, it guarantees maximum availability.

 Activation optionally
via NFC, savings book
or account card

 Lobby device for
24/7 service

 Automatic foreign
object removal and
foreign coin rejection

Your advantages:

- ✓ **More service in your branch**
Easy handling as well as fast and intuitive operation. Convenient, front-side servicing. Emptying via a mobile coin trolley.
- ✓ **Sorting out foreign objects**
Mechanical sorting and rejection of non-coin objects and deformed coins.
- ✓ **Contactless via NFC**
Optional activation via swipe reader, motor card reader or contactless via the built-in NFC reader.
- ✓ **More convenience through simple operation**
Flexible adaptation to customer needs through plug-in interfaces for connection to the customer infrastructure via RS232 and Ethernet.
